

Structural Solutions

Henkel Products

- Terokal® Structural Adhesives
- Terocore® Structural Parts
- Terocore® Structural Foams

Henkel Services

- Design and FEA Simulation
- Application Equipment
- Application Optimization

Your Total Solution

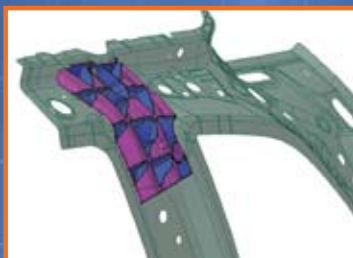

- Weight Reduction
- Greater Structural Integrity
- Improved Intrusion Resistance
- Enhanced Torsional Stiffness and Energy Management

Benefits

- Utilizing Henkel's resources and experience to help solve structural challenges
- Design and process efficiency
- Reliability
- Peace of mind

Features

- FEA modeling and validation
- Wide range of product offering (i.e., preformed parts, structural adhesives, foams)
- Comprehensive engineering support

Henkel

NVH Solutions

Henkel Products

- Terophon® and Terotex® Pumpable and Preformed Acoustical Materials
- Novel Material-Based Acoustic Technologies

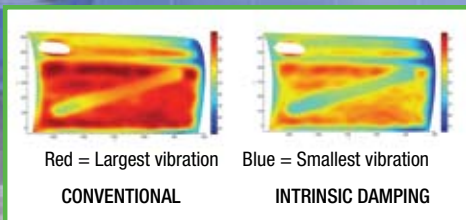

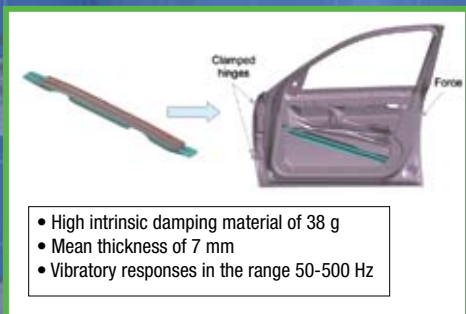

Henkel Services

- Acoustics Lab
- Design and FEA Simulation
- Application Optimization

Your Total Solution

Comfortable Driving Experience

Benefits

- Options to treat noise at source, path and receiver
- Reduced buzz, squeak and rattle
- Designer support

Features

- Acoustics lab
- FEA modeling and validation
- Wide range of product offerings (i.e., isolating, damping and barrier technologies)
- Comprehensive engineering support

Sealing Solutions

Henkel Products

- Terolan® Paint Shop Sealers, Including PVC-Free Chemistries
- Terostat® Body Shop Sealers
- Terostat® Sealing Parts

Henkel Services

- Total Sealing Management
- FEA Simulation
- Design and Validation

Your Total Solution

- Design for Future Sealing Demands
- Sealing Best Practices
- Total Vehicle Sealing

Benefits

- Predictive solutions to sealing issues
- Henkel offers a spectrum of solutions for differing cost and performance requirements
- Reduced design and manufacturing costs

Features

- Wide range of product offering (i.e., preformed parts, pumpable sealers)
- Comprehensive engineering support
- FEA modeling and validation
