

LOCTITE®

QUICKSTIX™

Get the job done right

Getting the job done right means having the right tools in hand.

Make sure that you have the Loctite® QuickStix™ Holster in your toolbox to get the job done right the first time and on time.

ORDER YOUR LOCTITE® QUICKSTIX™ HOLSTER TODAY!

KEY BENEFITS OF LOCTITE® QUICKSTIX™

- Keep toolboxes, workbenches, and hands clean
- Convenient: small enough to be “pocket friendly”
- Great for overhead use: no drips, leaks, or spills
- Fast and easy to apply
- Color-coded caps for easy application identification

LOCTITE® QUICKSTIX™
Portable. Convenient. Clean.

Henkel

**Loctite® QuickStix™ 268™ Threadlocker
High Strength - Part No. 37686**

- Eliminate loosening from shock and thermal expansion
- Prevent rust and corrosion while sealing and protecting threads
- Removable with localized heat and hand tools

TYPICAL APPLICATIONS

- Motor, transmission, and pump mounts
- Formulated for heavy-duty applications
- Heavy equipment
- Suspension bolts
- Bearing cap bolts and studs

**Loctite® QuickStix™ 561™ PST®
Pipe Sealant - Part No. 37127**

- Tested to seal at pressures of 100 psi instantly and at 10,000 psi when fully cured
- Seal metal pipes and fittings without contaminating or clogging lines
- Exceptional fluid compatibility, chemical resistance, and controlled lubricity
- Protect threads from rust, corrosion, and galling

TYPICAL APPLICATIONS

- Ideal for use in a broad range of industries including chemical processing, wastewater treatment, and automotive
- Seals all types of metal tapered threads and fittings to NPT specs

**Loctite® QuickStix™ 7088™
Primer - Part No. 1069258**

- Solvent free – environmentally responsible
- Speed up any Loctite® anaerobic products
- Ensure proper cure of any Loctite® anaerobic adhesives on inactive surfaces such as stainless steel, titanium, magnesium, aluminum, zinc, and other inactive metals

TYPICAL APPLICATIONS

- Assemblies that require fast cure
- Metal parts that are cold, have large gaps, or deep threads

**Loctite® QuickStix™ 248™ Threadlocker
Medium Strength - Part No. 37087**

- Eliminate loosening from shock and thermal expansion
- Prevent rust and corrosion while sealing and protecting threads
- Removable with hand tools

TYPICAL APPLICATIONS

- Mounting bolts
- Gearboxes
- Machine tools and presses
- Pumps and compressors

**Loctite® QuickStix™ Heavy Duty
Anti-Seize - Part No. 41205**

- Withstands temperatures up to 2400°F (1315°C)
- Provides exceptional lubrication and protection against rust, corrosion, seizing, and galling
- Reduces friction and wear of critical parts, which can be easily disassembled when needed

TYPICAL APPLICATIONS

- Bolts, bushings, pipes, fittings, flanges, gaskets, headers, manifolds, studs, etc.
- High heat ovens, crane assemblies, turbine studs, coal crushers, casting and molding equipment, and heat exchangers

SPECIAL OFFER: When you order a Loctite® QuickStix™ Holster for each of your maintenance mechanics*, we will provide your team with a FREE on-site, one-hour Loctite® Maintenance Workshop!

Loctite® MRO technology helps you cut maintenance time and costs while increasing the reliability of your equipment. On-site training by a Loctite® Adhesives and Sealants Specialist will cover common chronic problems and how Loctite® products can eliminate them. Training is focused on proactive techniques, resulting in reduced downtime, increased productivity, and extended equipment life. Interested? **Call us TODAY!**

*Minimum of 8 mechanics to qualify.
