Background

The chemical management group of Henkel, a service division of Henkel, provides a broad range of chemical management products and services to a variety of industries such as:

- Aerospace
- Automotive
- Electronics
- Industrial

For more than 20 years, this group has used its extensive history of chemical expertise to serve more than 100 global sites and:

- Offer knowledge and services derived from all Henkel divisions, including sales, purchasing and technical engineering
- Meet or exceed customer goals to effectively manage plant chemical systems and supply chain
- Adhere to and develop processes that ensure consistent service across all customers and tiers
- Integrate all aspects of chemical acquisition and point-of-use to promote cost reduction, process improvement and environmental compliance

“The most successful companies are reviewing their capabilities, and strategically aligning resources with what they do best.”

– The Harvard Business Review

Benefits

The chemical management group of Henkel utilizes state-of-the-art business information systems, centralized procurement/sourcing, and dedicated technical expertise to monitor processes and materials to reduce cost while maintaining or improving performance and quality, resulting in advantages for customers.

Cost Reduction

- Best-in-class technology, pricing and project management methods to reduce total chemical acquisition, usage and disposal costs
- Supply and product consolidation

Quality Control

- System monitoring to assure utilization of consistent, repeatable processes
- Product verification
- Proven best practices

Productivity Improvement

- Technical support for all managed materials
- Just-in-time delivery
- Cost, usage, waste and on-site inventory tracking
- Container and inventory optimization

Environmental Compliance

- Management of chemical approval processes and approved chemicals list
- Waste and chemical usage detail for customized waste reports by constituent per department/location
- MSDS management
- Regulatory compliance, and environmental and safety support

Potential for Savings
