

# LOCTITE®

**The newest product in the Loctite® stick line is the Disc Brake Quiet Stick.**

Invented and patented by Henkel, this unique, wax-like stick is specially formulated to dampen brake pad vibrations and eliminate associated squeaking and noise, without the sticky, smelly mess of traditional solvent and water-based products. Loctite® Disc Brake Quiet Stick forms a water-resistant, high temperature film that will absorb vibration and quiet disc braking.

- Revolutionary applicator
- No solvents
- Stop brake squeals, squeaks, and chatter

### Loctite® Disc Brake Quiet Stick 40299

**Pkg. Size:** 9 g    **Case Pack:** 10  
**Unit Weight:** 0.048    **Case Weight:** 0.48  
**Item Dimension:** (LxWxD): 6.50x3.8125x0.90  
**Case Dimension:** (LxWxD): 7.0625x5.1875x4.25  
**Unit UPC:** 079340402997  
**Case UPC:** 030079340402998

### Loctite® Disc Brake Quiet Stick 40300

**Pkg. Size:** 19 g    **Case Pack:** 6  
**Unit Weight:** 0.142    **Case Weight:** 0.85  
**Item Dimension:** (LxWxD): 8.00x3.8125x1.20  
**Case Dimension:** (LxWxD): 8.25x4.625x5.125  
**Unit UPC:** 079340403000  
**Case UPC:** 030079340403001

# Loctite® Disc Brake Quiet Stick

is the only brake squeal product tested that fully meets OEM acceptance criteria.

The table below shows the products tested listed in the order of the number of noise events. By studying this table and the above graph, it can be determined that, during these tests, Loctite® Disc Brake Quiet Stick was the most effective at reducing brake noise events.

Tested Products	Number of Noise Events	Noise Level
Loctite® Disc Brake Quiet Stick	64	Quietest
CRC® Disc Brake Quiet Aerosol	76	I
Permatex® Liquid	100	I
Baseline with Shim	245	I
Baseline without Shim	245	Noisiest

Test results are based on independent brake noise testing done by Link Testing Laboratories, Inc. using Henkel products and Henkel's competitors' commercially available products. Link Testing Laboratories, Inc. does not endorse or recommend any product. Link Testing Laboratories, Inc. guarantees accuracy and consistency of test results, which are valid for these products under the conditions tested.
