

LOCTITE®

NEW

HIGH PURITY THREAD SEALANT

Loctite® 5802™ PST® is a high purity sealant formulated to meet the green limit requirements of the nuclear industry. This thread sealant is designed for the locking and sealing of threaded metal pipes and fittings.

Loctite® 5802™ PST® is low in impurities, such as:

- Halogens
- Sulfur
- Low melting point metals

These can be harmful to metal pipes in the nuclear reactor environment.

In addition, Loctite® 5802™ PST® is suitable for stainless steel applications and will not decompose at the operating temperatures typically found in a nuclear facility.
